

# SAMARITAN 500P

## DEFIBRILLATION IS EASY, CPR IS THE HARD PART...

Regardless of whether it is a lay person or a professional rescuer, the ANZCOR guidelines place a greater emphasis on the importance of CPR and advocate the prompt initiation of effective bystander CPR to significantly reduce mortality due to out-of-hospital Cardiac Arrest (CA). HeartSine can now provide a device to support these guidelines by the introduction of the **HeartSine samaritan PAD with CPR Advisor model 500P**.

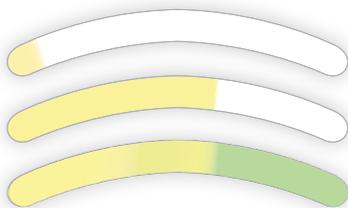

## EASY-TO-FOLLOW GUIDES

**Built-in confidence.** The samaritan PAD 500P uses an Impedance Cardiogram (ICG) to assess the effectiveness of the CPR and give the rescuer feedback on compressions.

**User-friendly.** Easy-to-understand visual and voice prompts guide a user through the entire process.

**Always ready.** A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. The AED also automatically runs a regular self check.

### Visual LEDs

### Audio Commands

"Push Faster!"  
 "...Push Slower!"  
 "...Push Harder!"  
 "Good Compressions!"

## COMPACT IN SIZE, BIG ON ABILITY

**Highest level of dust/moisture protection.** The samaritan PAD has a rating of IP56, providing the 500P defibrillator with the highest level of protection from dust or moisture ingress in the industry.

**Durable.** The samaritan PAD 500P resists shock and vibration and comes with a shock-proof carry case free of charge

**Advanced technology.** The samaritan PAD 500P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™\* Biphasic Technology to assess rhythm and recommend defibrillation is necessary.

## PAD PAK TECHNOLOGY

### Low cost of ownership.

Pad Pak cartridge has a shelf life of four years from date of manufacture, offering significant savings over other defibrillators that require separate battery and pad units.

### Two parts, one expiration date.

Cartridge combines battery and electrode pads, with one expiration date to monitor.

### Great for children.

The HeartSine PAD's built-in intelligence and unique pediatric Pad-Pak ensure the appropriate energy level is delivered for children.
